

## AJALT Japanese Language Program for Enterprise

AJALT can design a program that meets your specific needs and offer Japanese lessons at the time and location you choose.

1. AJALT submits a quotation on the total program cost, including lessons, transportation, and text materials.
  - Two to eight students may enroll in each program.
  - Each lesson is one-hour minimum with additional 30-minute increments.

Tuition is as follows

1 hour	1.5 hours	2 hours	2.5 hours	3 hours
¥9,570	¥14,355	¥19,140	¥23,925	¥28,710

(Prices include 10% consumption tax)

- Additional fees for program management (20% of tuition), creating course materials (10% of tuition), costs of instructor transportation, costs of online meeting services, etc., may also be assessed.
2. Once you approve the quotation, AJALT will ask you to sign a contract or other documents, as necessary.
  3. AJALT develops a curriculum based on your requirements.
    - Once the program begins, no changes to the contract will be allowed.
    - AJALT instructor can submit a progress report upon completion of the program.
